

Mogiv Tutorial for Givers

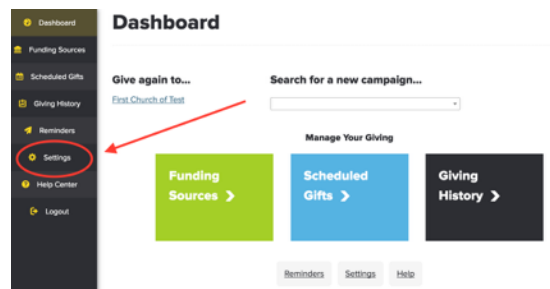

Giving Via Text

If you've created a Mogiv account, then you already know how easy it is to use Mogiv to setup one-time or scheduled gifts on the internet. BUT...did you know you can also use Mogiv to text in your donations directly from your mobile phone? Here's how it works...

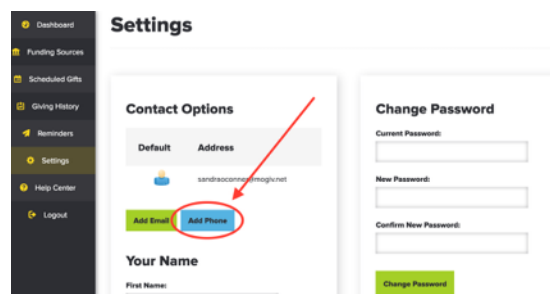

Step 1: Login to your account

- ▶ Log into your Mogiv account using your email and password
- ▶ From your dashboard, click "Settings"

Step 2: Add your phone as a contact option

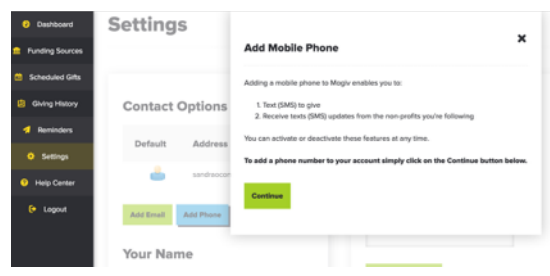

- ▶ Under "Manage Contact Options" click "Add Phone"
- ▶ Read over the info on the pop-up window and click "Continue."

This will generate a unique confirmation code.

Step 3: Activate your phone

- ▶ From your phone, text your **unique** confirmation code to the number 56769.

Start Giving!

That's it! Your phone is now activated. To give via text message, simply follow the instructions provided by the organization(s) you support to submit your gift. They will have either a unique keyword or a unique "giving address" that can be used to submit your donations.

Questions?

Not sure where to text in donations? Check with someone at the organization you support, or email us at support@mogiv.com.

Thanks for using Mogiv!
